

TruSystem™ 7500 OR Table

Ahead of its Time

Enhancing outcomes for
patients and their caregivers:

Hill-Rom

Cutting-Edge Technology – Now and in the Future

Current requirements in the OR demand a high level of flexibility and safety. To make workflow as efficient as possible, Trumpf Medical developed the trend-setting TruSystem™ 7500 OR System Table, which enables highly ergonomic working methods for patient loads of up to 880 lbs / 400 kg. In addition, the TruSystem™ 7500 SensorLine OR Table package helps to enhance safety and efficiency of patient care.

The result is an innovative solution that helps to ensure that your OR is fit for the future.

For further information on the TruSystem™ 7500 OR Table, go to www.trumpfmedical.com/en/trusystem7500

Safe, Ergonomic and Efficient

TruSystem™ 7500 OR Table enhances functionality, ease of use and design

- **Safer workflow**

With the SensorLine enhancement package, TruSystem™ 7500 OR Table offers assistance functions including collision monitoring and overload protection, to make working in the OR even safer.

- **Impressive flexibility**

TruSystem™ 7500 OR Table offers extreme adjustment ranges and is, therefore, suitable for a wide variety of different disciplines.

- **Ergonomic handling**

Due to the intuitive coupling point system, all components can be exchanged with ease. A reduction of up to 25% in component weight also simplifies day-to-day handling in the OR.

TruSystem™ 7500 Hybrid OR Table – the Center for the Hybrid OR

The Hybrid OR with modern imaging is the future of integrated patient care. With an OR system table in your hybrid room, you gain full freedom for use in minimally invasive and interdisciplinary applications.

The TruSystem™ 7500 OR System Table provides flexible room usage leading to adaptable scheduling and heightened uptime and, therefore, higher profitability.

Flexible integration interface for a multi-functional hybrid system

TruSystem™ 7500 OR Table offers together with our partners the ideal solution for interdisciplinary requirements during the operation.

Find out more about our hybrid OR solutions at:
www.trumpfmedical.com/en/solutions/hybrid-or/

Carbon FloatLine™ OR Tabletop – accurate patient positioning using intelligent sensor technology

- **Assistance in vascular surgery** through rotation around a fixed isocenter in the image with TruSystem™ 7500 SensorLine OR Table
- **Maximum comfort during traumatological-neurosurgical procedures** with a radiolucence of up to 70.9" / 1,800 mm through 360°
- **Free-floating movement** using the power-sensor-assisted operating unit Sensor Control FloatLine

TruSystem™ 7500 OR Table – a solution for cranial, spinal and traumatological procedures

In combination with the Airo® Mobile Intraoperative CT Scanner by Brainlab, the TruSystem™ 7500 OR System Table facilitates an ideal workflow for inter-operative imaging. With positioning sets, carbon components and accessories for cranial, spinal, and traumatological interventions, the replaceable tabletop system is the unique solution for optimizing workflow in hybrid operating rooms.

Safe and Well-Designed TruSystem™ 7500 SensorLine OR Table

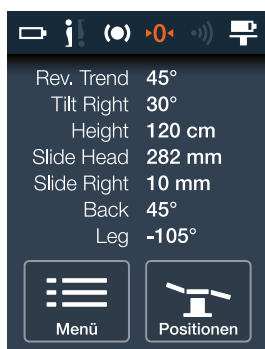

The TruSystem™ 7500 SensorLine OR Table package offers additional safety and flexibility, enabling you to meet your individual requirements in various applications and configurations.

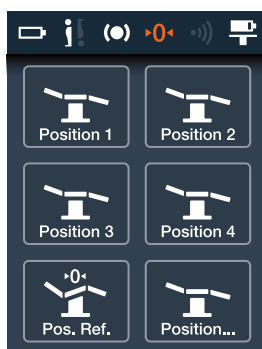

Additional package
TruSystem™ 7500 SensorLine
OR Table

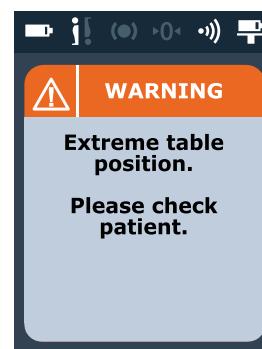

Simple, intuitive operation

Real-time table status

Rapid memory position

Built-in alert system for patient safety

Intelligent additional functions – ideal for every application

- **Individually customized** tabletop articulations for patient transport on the shuttle.
- **Configurable transfer height** for efficient patient transfer.
- **Rotation around a fixed isocenter** for visibility during minimally invasive procedures.
- **Enhanced Trendelenburg / tilting ratio** for optimal access during laparoscopic surgery
- **Efficient Trendelenburg adjustment** for patient care in emergencies.
- **Control panel lock** for additional protection during procedures.

Collision monitoring through detection and avoidance

Overload protection for maximum patient safety

Assisted Patient Transfer with the Power Shuttle Transport System

The Power Shuttle Transport System makes processes in the OR more flexible and efficient. Integrated power sensors and individual speed control in the handles makes patient transport safer and more ergonomic.

Assisted Transfer with Shuttle - Optimize workflow within the OR with the TruSystem® 7500 Operating Table. The replaceable tabletop system enables patient transport within the following areas of the surgical suite:

- **Transfer and Preparation**

Workflow benefit: while working in the OR, the anaesthetic can be administered to the patient on the shuttle

- **OR room**

Workflow benefit: safe and precise transfer in just a few steps

- **Recovery**

Workflow benefit: ergonomic patient transfer in the recovery area

Safe Positioning for Every Procedure

TruSystem® 7500 OR Table offers a high number of positioning options for a wide variety of different applications: from general and neurosurgery to gynecology, urology, traumatology, and orthopedics. Flexibility is further increased by a wide range of positioning pads and special table accessories.

Neurosurgery: Procedures such as DBS

General Surgery: Thyroidectomy

Bariatric Surgery: Sleeve Gastrectomy

Spinal Surgery: Lumbar Fusion

Vascular Surgery with Isocentric Tilting

Orthopedics: Shoulder Surgery in Beach Chair Position

Gynecology: Lithotomy Position

Orthopedics and Traumatology with MIS Hip Aggregate and Extension Unit

Thoracic Surgery in Lateral Position

^[5] The universal OR tabletops are also available as a washable version.

Hill-Rom is a leading global medical technology company with more than 10,000 employees in over 100 countries. We partner with health care providers by focusing on patient care solutions that improve clinical and economic outcomes in five core areas: **Advancing Mobility, Wound Care and Prevention, Clinical Workflow, Surgical Safety and Efficiency, and Respiratory Health.** Hill-Rom people, programs, and product brands work towards one mission: **Every day, around the world, we enhance outcomes for our patients and their caregivers.**

Trumpf Medical, part of Hill-Rom, is distinguished by high-quality German engineering standards and offers innovative products to improve efficiency and safety in the OR, ICU, and in other clinical environments throughout the care sector. With our customers' requirements as our benchmark and innovation as the foundation of our success, Trumpf Medical delivers total solutions to fit your clinical care needs.
